NOTE.—The figures for the first five years may, for statistical purposes, be regarded as final; those for the last year—which have been revised to 31st Dec., 1907—will be liable to future correction. It should be stated, however, that there is no finality to the changes which may occur for back years in the Income Tax Registers, but such changes will not materially affect the above results. The Income Tax was imposed by Act 58 Vict. No. 1374, passed on the 29th January, 1895, and Regulations framed thereunder, dated the 14th March, 1895, and is levied on incomes earned after deducting all outgoings and expenses incurred in the production of income, an exemption of £200 being allowed until 1903, except in the case of absentees. For the five years 1903, 1904, 1905, 1906, and 1907 the exemption was reduced to £100, allowed to both resident and non-resident taxpayers, except companies, on incomes between £126 and £500 in 1903, between £151 and £500 in 1904, between £157 and £500 in 1905 and 1906, and between £200 and £500 in 1907. The rates of tax, which are fixed annually, applied to incomes over £200 for the year 1906–7, and were as follow:—

Of Taxable Amount—	Rate of Tax on Incomes derived from— Personal Exertion.	Rate of Tax on Incomes derived from— The Produce of Property.
First £500	3d. in £1	.. 6d. in £1
Next £500	4d. in £1	.. 8d. in £1
Next £500	5d. in £1	.. 10d. in £1
Above £1,500	6d. in £1	.. 12d. in £1

* Taxpayers entitled to exemption shown in brackets.

† Penalties are excluded for each year as follow:—£897, £963, £1,742, £1,849, £2,165, and £990 respectively.

NOTES.—(1) Annual allowances in addition to pensions are sometimes granted, and hence the total number of pensioners is fewer than that of pensions. This happens chiefly in the Railway Department where extra allowances were voted as follow:—112 for £724 in 1899–1900, 119 for £806 in 1900–1, 116 for £795 in 1901–2, 109 for £787 in 1902–3, 104 for £776 in 1903–4, 97 for £671 in 1904–5, 79 for £513 in 1905–6, and 84 for £606 in 1906–7.

(2) Police and Pilot pensions are not included, being payable out of special funds. The endowment payable out of the General Revenue to the Police Superannuation Fund, under Act 54 Vict. No. 1127, is £2,000 per annum; but in addition to this the following amounts in aid have been paid out of Votes in the years named:—£15,000 in 1899–1900, £13,000 in 1900–1, £20,000 in 1901–2, £45,000 in 1902–3, £40,000 in 1903–4, £42,000 in 1904–5, £40,000 in 1905–6, and £36,000 in 1906–7. No Government contribution is made to the Port Phillip Pilot Sick and Superannuation Fund. For number and amount of Police and Pilot pensions, see page 43 *post*.

* Including the superannuation allowance of a late Clerk of the Parliaments, pensions under the Commissioners of Audit, Officers of Parliament, and Public Service Board Acts and Act 1988.——† Including pensions under Victorian Railways Commissioners Act.——‡ Exclusive of payments to Police Superannuation Fund referred to in note 2 *supra*.——§ Subject to sanction of Parliament.

NOTE.—Pensions and gratuities to the police are payable under the Police Regulation Act (54 Vict. No. 1127) out of a fund called the Police Superannuation Fund. This fund is maintained by an endowment from the consolidated revenue, by a moiety of fines inflicted by the courts of petty sessions, by a deduction not exceeding 2½ per cent. from the pay of the force, and, when the foregoing sources are insufficient, by further grants in aid from the consolidated revenue. In 1906–7, the ordinary receipts were as follow:—Government endowment, £2,000; fines, £4,203; deductions from pay (at 2½ per cent.), £5,261; Government subsidy voted to supplement endowment, £36,000; total, £47,464. The balance at the credit of the fund on the 1st July, 1906, was £7,718; and on the 30th June, 1907, £5,87[illegible]. During the past twenty years it has been necessary to vote £457,891 (exclusive of endowment) in aid of the fund, or an average of £22,894 per annum.

NOTE.—The figures in this table, which have been furnished each year by the Registrar-General, do not express the full amounts secured and released in each year; the reason being that the amounts are frequently not set forth in the registered documents, especially in regard to live stock, wool, and crops released, and in the case of which, although the mortgages or liens may have been paid off, the mortgagors seldom take the trouble to have the releases registered, as the securities relating to wool and crops lapse after the expiration of twelve months from date of the same.

* The following mortgages are not included:—Building Society mortgages which are registered as absolute transfers and regarded as such by the Titles Office; and Equitable mortgages to banks and individuals by deposit of title-deeds chiefly for temporary advances, of which there is no public record. The Releases are also deficient, inasmuch as a mortgage is very often discharged in other ways, *e.g.*, the mortgagee sells under his power of sale on default, or the mortgagor transfers the property to the mortgagee in satisfaction, or the mortgagee forecloses.

† Of these numbers 2,955 in 1903, 1,286 in 1904, 1,095 in 1905, 624 in 1906, and 174 in 1907 were liens to the Board of Land and Works under the *Seed Advances Act* 1903.

* The financial years of Melbourne and Geelong end on the 31st December and on the 31st August respectively; that of all other municipalities on the 30th September.—— † In addition, the following rates were levied in the following municipalities:—Sanitary rates in Castlemaine, Eaglehawk, and Echuca of 4d. in the £1, in Rutherglen of 2d. in the £1, and in Bendigo, Brunswick, Ballarat, Buninyong, Malvern and Wangaratta of 14s., 7s., 12s., 11s., 14s., and 18s. per pan respectively; Lighting rates in Geelong and Melbourne, of 3d. and 4d. in the £1 respectively; and a Water rate in Sale of 1s. 6d. in the £1; and Improvement rates of 2s. 6d., 3s., and 3s. 3d. in the Town of Northcote. It must not, however, be inferred that similar rates were not levied in other municipalities, as many of them furnished no particulars respecting the rates levied in addition to the general rates.——‡ The area comprised in the Statistical District of Greater Melbourne embraces a radius of 10 miles from the General Post Office. For particulars as to the shires which are either wholly or partly comprised within that radius, see foot-notes ‡ and § on page 9, *post.*——§ Brunswick was constituted a city on the 8th January, 1908.

				£	£
892*	803	69	20	1,769	1,884

* In addition to the new cases of individuals as stated above, there were 29 investigations on behalf of, or regarding, societies or institutions 13 inquiries *re* persons not in actual distress, and 584 "old" or recurrent cases were dealt with, 110 of which needed re-investigation.

Note.—There are now records of over 16,600 cases in the archives of the Society. This Society does not primarily aim at distributing alms from its own funds, but ascertains by investigation whether applicants for relief are "helpable," and, if so, how adequate assistance can be most wisely rendered, thereby assuring charitably disposed people that their contributions are being properly bestowed. It maintains a woodyard as a labour test, so that the means of earning food and shelter shall be open to men able and willing to work. It strives to induce co-operation between the charities, the recognition of the necessity of organization in the work of charitable institutions, and the compilation of records of value to the sociologist and philanthropist. It also strives to create a centre of intelligence bearing on charitable work generally.

NOTE.—Pastoral and grazing area leases are granted for any term of years expiring not later than 29th December, 1909, and 29th December, 1920 respectively; whilst grazing licences are only of a temporary character (renewable annually), and are only granted for waste lands of the Crown till required under the principal sections of the Act. The Mallee leases, as the name indicates, are confined to the Mallee country, in the North-Western portion of the State, which was formerly dealt with under a special Act—the Mallee Pastoral Leases Act, the clauses of which were subsequently embodied in the Land Act 1890. The lessees of grazing areas have the privilege of selecting (*i.e.*, purchasing under the deferred payment system on certain conditions) an area not exceeding 200 acres first class, 320 acres second class, 640 acres third class, or 1,280 acres fourth class according to the classification of the land out of their lease for agricultural or grazing purposes; and lessees of Mallee allotments have a like privilege of selecting out of their lease 640 acres first class, 1,000 acres second class, 1,280 acres third class, or 1,600 acres fourth class according to classification of the land.

* £100,000 originally granted to Waterworks Trusts for construction of headworks, but portion of grant now appears under (*a*) Irrigation, &c., Districts; and (*b*) Loddon Works, owing to transfer of works. Cost under this heading is, of course, not included in capital indebtedness.

† Free grant under Act No. 1904, towards Charlton Weir and Waterworks.

‡ Water supplied from Railway Department's works.

§ The property of this Trust has been taken possession of by the State Rivers and Water Supply Commission, as provided by section 278 of the *Water Act* 1905.

¶ Shire of Numurkah Trust—Works constructed by Trust .. £4,700 (not included in cost above) } taken over by State under "Broken River Works."
„ Shepparton Trust— „ „ .. 5,000 „ „
„ Tungamah Trust— „ „ .. 4,750 „ „

‖ Abolished under the provisions of the *Water Act* 1905.

NOTE.—Carrum and Yatchaw Trusts are practically drainage trusts.

** Special grant made by Appropriation Act No. 2108.

* There is no record of the produce for the three years prior to 1839.——† In 1863-4, 1864-5, and 1878-9 the yield of wheat was much affected by "rust."——‡ The tobacco crop in 1875-6, 1879-80, 1890-91, 1892-3, 1898-9, 1900-1, and 1901-2 failed in most parts of the State. The figures for 1907-8 are not available.——§ See "Minor Crops," page 75 *post.*

* As only a part of the potato crop., viz., 5,479 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards, from the principal growers in each county. The average of the 5,479 acres dug prior to the general collection of the statistics was 2.86 tons per acre; and that of 23,732 acres, returned by principal growers after such collection, was 2.45 tons per acre, giving a general average for the whole season of 2.50 tons per acre. Hence the estimate of the total produce is based on the average yield of 29,211 acres—or, more than one-half of the whole area.

† Of this total, the estimated quantity of grapes used for making wine was 195,086 cwt.; for making raisins, sultanas, and currants, 274,211 cwt.; and for table consumption and export, 66,507 cwt.

‡ 9,800 cwt. of undressed flaxen straw grown in 1907–8 was reported to be awaiting treatment.

* For statistical purposes the municipalities within each district have been arranged as nearly as possible in geographical order. Municipalities that overlap the boundaries of districts have been considered in those districts wherein the principal portions were situated.

† In 1907–8, wheat was grown on 16,303 holdings, compared with 18,077 in 1906–7.

‡ This refers to land over which imported grass, clover, &c., has spread without cultivation; scrub land on which grass has been sown after burning, without ploughing, has been included.

§ The number of hands ordinarily employed on any holding includes the occupier or manager, and those members of his family who actually work on it; but persons absent from their farms for the greater portion of the year following other occupations, as well as temporary hands—engaged harvesting, &c.—are not included, neither are domestic servants and cooks.

† As only a part of the potato crop, viz., 5,479 acres, had been dug when the statistics were collected, an estimate has been made of the remainder of the yield, based on averages deduced from actual information received in response to cards, from the principal growers. The average of the 5,479 acres, dug prior to the general collection of the statistics, was 2·86 tons per acre; and that of 23,732 acres, returned by principal growers after such collection, was 2·45 tons per acre, giving a general average for the whole season of 2.50 tons per acre. Hence the estimate of the total produce is based on the average yield of 29,211 acres—or more than one-half of the whole area.

NOTE.—The items in this Table do not represent the whole area under the respective crops grown, but only of such as were taken cognisance of by the collectors. The minor crops are often raised in gardens, in which case the various descriptions would not be distinguished. They may be also grown upon allotments of less than one acre in extent, and these the collectors are not called upon to visit. The Table must, therefore, be looked upon as indicating the nature of certain crops grown in Victoria rather than the full extent to which those crops are cultivated.

MANUFACTORIES, 1907.

The Classification of Industries and the Definition of a Factory, agreed to at the Conference of Statisticians held at Hobart Tasmania, in January, 1902, have been adopted in these tables. The following is the definition of a Factory :—" All establishments employing, on the average, four hands or upwards, also those with less than four hands, where machinery is worked by power other than manual, making or repairing for the trade (wholesale or retail), or for export."

Where two or more industries are carried on by one proprietor in one building, each industry is, where possible, treated as a separate establishment.

NOTE.—Where the number of Factories are braced the information has been combined in order to conceal the contents of individual schedules. The figures in parentheses indicate engines worked in conjunction with those of a different description.

* The figures in this column apply to purchased land only. Two hundred and ten establishments (including eight creameries and sixty-six cyanide works) were carried on upon Crown lands; in these cases no valuation of the land has been given.

† Nailmaking is also carried on in conjunction with wireworking and saw and moulding mills. Creameries are not counted as separate establishments, but are regarded merely as branches of butter factories. The number of hands employed in creameries was 210 males.

‡ Factory workers, working at their own homes.

‖ Including one Pintsch gas works.

[1] The figures of Revenue and Expenditure are for the twelve months ended 31st December of each year until 1871, when the financial year was changed so as to terminate on the 30th June. The figures for 1871 are therefore for the six months ended 30th June, and the figures for subsequent years are for the twelve months ended 30th June.

[2] In addition to the quantity of land sold and amount realized within the year, the figures under the head "Crown Land Sales" represent during each of the years after 1868, the total extent of, and amount paid on, lands purchased under deferred payments of which the payments were completed within the year, although such payments had extended over a series of years. The extent selected, of which the purchase had not been completed, is not included in the area sold. This amounted, at the end of 1907, to 4,271,112 acres. The figures for 1894 include 12,221 acres disposed of to Messrs. Chaffey Bros. in previous years for £1 per acre, which area and amount were not previously taken into account. The figures for 1895 include 11,584 acres granted without purchase to Messrs. Chaffey Brothers; but lands granted without purchase, which amounted, up to the end of 1907, to 86,718 acres (including 50,000 granted to Messrs. Chaffey Bros.), are excluded.

[3] Since the year 1864, a considerable quantity of wool has each year been imported into Victoria across the Murray, from the Riverina district of New South Wales, for transport by railway to Melbourne and shipment thence. Prior to 1872 no precise record of the quantity so introduced was kept at the Customs. It has, however, been ascertained that at least 13,000,000 lbs. of wool, valued at £972,000, crossed the Murray into Victoria in the year 1870, and the following amounts in the years named:—19,552,598 lbs., valued at £1,096,772, in 1872; 31,542,913 lbs., valued at £1,745,550, in 1873; 35,332,089 lbs., valued at £1,975,879, in 1874; 40,535,081 lbs., valued at £2,260,799, in 1875; 44,430,185 lbs., valued at £2,039,009, in 1876; 37,647,218 lbs., valued at £1,661,868, in 1877; 43,357,702 lbs., valued at £2,081,368, in 1878; 46,561,653 lbs., valued at £2,338,670, in 1879; 54,865,967 lbs., valued at £2,720,612, in 1880; 53,090,294 lbs., valued at £2,594,240, in 1881; 44,213,260 lbs., valued at £2,224,512, in 1882; 29,072,345 lbs., valued at £1,355,219, in 1883; 42,796,749 lbs., valued at £1,875,962, in 1884; 39,306,234 lbs., valued at £1,633,517, in 1885; 40,138,278 lbs., valued at £1,866,029, in 1886; 52,423,118 lbs., valued at £2,198,223, in 1887; 48,045,819 lbs., valued at £2,036,637, in 1888; 54,738,160 lbs., valued at £2,608,743, in 1889; 58,433,040 lbs., valued at £2,415,337, in 1890; 65,389,504 lbs., valued at £2,406,292, in 1891; 57,031,431 lbs., valued at £2,107,838, in 1892; 61,002,358 lbs., valued at £1,817,000, in 1893; 61,222,763 lbs., valued at £1,668,718, in 1894; 55,302,943 lbs., valued at £1,527,093, in 1895; 52,669,995 lbs., valued at £1,426,827, in 1896; 44,297,220 lbs., valued at £1,203,100, in 1897; 37,654,370 lbs., valued at £989,943, in 1898; 38,366,902 lbs., valued at £1,237,198, in 1899; 43,825,091 lbs., valued at £1,287,136, in 1900; 43,369,256 lbs., valued at £1,262,779, in 1901; 26,065,095 lbs., valued at £773,325, in 1902; 25,167,419 lbs., valued at £970,094, in 1903; 32,664,057 lbs., valued at £1,310,130, in 1904; 41,770,266 lbs., valued at £1,786,049 in 1905; 58,473,353 lbs., valued at £2,514,353 in 1906; and 46,919,878 lbs., valued at £2,056,034 in 1907.

[4] The quantities of flour, bread, and biscuit imported and exported are reduced to their equivalent in bushels of wheat.

[5] The births and deaths given for 1853 are all of which there is any record; but it is known that the figures considerably under-state the truth, and it is supposed that each in reality amounted to not less than 5,000. The deficiency has chiefly arisen from the fact that the system of registering births and deaths was entirely changed during the year 1853, and the new system was not at first properly understood. In consequence of this, and also owing to the unsettled state of the gold-field population, it is known that many children born were neither baptized nor registered, and many persons who died were buried without registration or funeral service.

[6] Post cards were first issued in April, 1876. They are included with the letters in this column.

[7] Prior to 1871 the expenditure was for the year ended 31st December. The figures for 1871 relate to the first six months only. Since that date they have been for the year ended 30th June—except as regards the Railway expenditure in 1876, which is for the eighteen months ended 31st December, and in the years 1877 to 1884, which are for the twelve months ended 31st December; and except as regards Country Waterworks expenditure, which for all the years prior to 1885 is for the years ended 31st December. The figures do not in any case include amounts expended by municipal governments.

[8] These returns are those of the Government and private railways combined, the latter of which were purchased by the State in July, 1878. The returns of the former are, prior to 1871, for the year ended 31st December; in 1871 for the six months ended 30th June; in the years 1872-5 for the twelve months ended 30th June; in 1876 for the eighteen months ended 31st December; in the years 1877-84 for the twelve months ended 31st December, and subsequently for the twelve months ended 30th June. The returns of private railways are for the year ended 31st December up to the time they were purchased by the Government.

[9] Post Office Savings Banks were first opened in 1865. Hence the increase in the number of banks from that year. The returns for the Post Office Savings Banks are for the years ended 31st December; those for the Trustee Savings Banks are for the years ended 30th June. They were merged into one institution on the 1st October, 1897.

[10] Until 1879 the figures did not give particulars of all the Friendly Societies in the colony, but only of such as furnished returns. For that and subsequent years the returns are complete.

[11] The increase in the number of telegrams, in 1870 and 1885, was consequent on a reduction in the rates.

[12] Including purchase money of the late Melbourne and Hobson's Bay Railway Company's lines.

[13] For the first time telegrams on Railway service were not included.

[14] Exclusive of Treasury Bonds in aid of Revenue, and of £2,389,123 in 1893 available for the redemption of loans about to fall due.

[15] Since last publication the figures in this column have been revised, neglected children arrested by the police having been excluded from the criminal returns.
